HSINSOU D-19 conc. Hydrogen peroxide remover

HSINSOU D-19 conc. is a special hydrogen peroxide remover. Using this product after scouring & bleaching can reduce hydrogen peroxide residual from pre-treatment and make the dyeing piece or yarn deeper and brighter.

General properties :

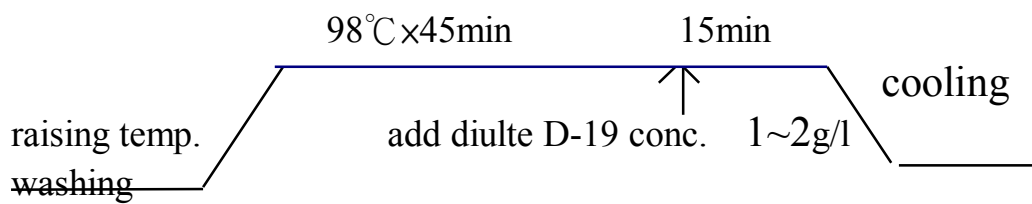

Appearance :	white crystal powder
Composition :	Special reducing agent
pH (1% solution) :	6.0 +/- 1.0
Solubility :	Dissolved in water

Special features :

1. Excellent efficiency.
2. Make the dyeing piece or yarn more bright.
3. Suitable for any dyestuff.

Application :

hydrogen peroxide 、bleaching™ add HSINSOU D-19 conc.
about 1~2 g/l™15 min. treatment™ drain water™ washing

H ₂ O ₂ (35%)	8%
NaOH	pH : 12
TCSN CONC	0.4g/l
A-500	0.5g/l
SW-BSC-10	2~3g/l

Note: full evaluation is recommended prior to commercial usage.
