

HSINSOU SIL-T-18

Silicone Lubricating agent

HSINSOU SIL-T-18 is a silicone lubricating agent designed for application on synthetics and natural fibers. It imparts a soft and smooth handle with excellent elasticity effects.

General properties:

Appearance : White emulsion liquid Composition : Silicone compound

Ionic nature : Nonionic pH (1% solution) : 7.0 +/- 1.0

Solubility : Easy to dissolve in cold water

Special features:

- 1. Can be used alone or with resin finishing.
- 2. Imparts a pleasing soft, smooth handle with excellent elasticity properties.
- 3. Improves tear and abrasion strength.
- 4. Non-yellowing.
- 5. Suitable for application on all fibers.

Application:

1.Dyed fabrics:

HSINSOU SIL-T-18

 $0.5 \sim 2.0\%$ (o.w.s.)

HSINSOU CO-20	2.0 ~	3.0%	(o.w.s	.)
---------------	-------	------	--------	----

2.Piled fabrics:

HSINSOU SIL-T-18 $0.5 \sim 1.0\%$ (o.w.s.) HSINSOU KW-112DS $1.0 \sim 3.0\%$ (o.w.s.)

3.Use with resins:

HSINSOU SIL-T-18	$1.0 \sim 2.0\%$ (o.w.s.)
HSINSOU KW-112DS	$1.0 \sim 3.0\%$ (o.w.s.)
HSINSOU RN(glyoxal resins)	$8.0 \sim 10\% (o.w.s.)$
HSINSOU BF(catalyst)	$2.0 \sim 2.5\%$ (o.w.s.)

Note: full evaluation is recommended prior to commercial usage.
